

Puncture Xtreme

Code # E10-6 PXTR

Product Description:

Eureka Puncture Xtreme gloves offer High level Needle stick & Cut resistance Unique “SupraBlock Stop” material contains tightly woven Para Aramid fabric covered by a ceramic composite coating to deliver a high level of protection against a combination of extreme working hazards.

- **Extremely High Level Cut Protection** with ISO 13997 Testing of > 60 newtons. This is 2 times the Maximum Level F rating under EN388 (F=30N)
- **Very High Hypodermic Needle Puncture resistance**, palm & fingers, according to ASTM F2878-10 of 10N (25g Needle)
- **Oil & Water resistant**, non breathable Nitrile grip coating is suitable for liquid environments
- **Para Aramide liner** provides good heat contact transfer properties and displays reduced flammability

Applications:

- Metal / Sharps Handling
- Recycling / Demolition
- Waste Handling
- Cleaning & Maintenance

Technical Data:

Black Nitrile finish on a seamless knit Para-aramide, FR Polyester and Fibre Glass liner.

Available in Sizes S – 2XL,
